Frequently Asked Questions

What is included in this training program?

SkillMill's immersive, on-demand training platform includes expert-led video courses, 3D simulations, assessments, knowledge checks, and learning paths — all to help you advance your technical skills quickly and efficiently.

How do SkillMill's 3D simulations help me train?

SkillMill's 3D simulations mimic real-world equipment and scenarios to give you the most realistic online training experience available. These interactive simulations allow you to practice hands-on methods anytime, anywhere so you can master skills when it is convenient for you.

Will this training help me get industry certifications?

Yes! The SkillMill training platform not only helps build up your technical skills but also includes training to prepare you to take industry certification exams such as Nate Ready-to-Work, EPA 608, and OSHA 10.

What types of courses are available with SkillMill?

SkillMill's courses cover beginner to advanced-level content in high-demand trades industries, including HVAC, plumbing, electrical, solar, construction, and more. With new courses added every month, SkillMill's ever-expanding training catalogs ensure you are learning the most relevant and accurate material.

What kind of device do I need to access this training?

Video courses are playable on all devices. The 3D training simulations can be accessed via tablet, laptop computer, desktop computer, or virtual reality (VR) headset. While VR provides an immersive training experience, you do not need to have a VR headset to use this training.

How do I get started?

Contact our Branch Manager, Mary B. and the SkillMill Team by emailing skillmill@beau.org to begin using the platform!
